

Affirmation of Abundance

One Life, One Source, One Universal Energy, One Connection, One Truth. One Creation, One Unity, One Ever-Emerging Reality.

I (put your name here), am part of that One Life, that One Source, That One Universal Energy. Like the drop of water in the ocean, I am part of the Vastness of All That Is, and inseparable from it. I am part of all Universal flow and energy. All that exists is energy in different vibratory forms.

I now open my vibrational energy to allow the vehicle known as abundance and financial wealth to flow to me, through me, and exceed my greatest needs and/or expectations. I perceive the unlimited bounty of all things in this Universe and know that money is also unlimited.

I now direct the energy known as money to flow to me, stay with me, flow through me, and come to me in a manner acceptable to me. I allow money to arrive in all forms that I consider authentic and pure and I am directed to those activities which will

automatically produce a vast abundance of financial wealth and money to me now.

I follow my inner instincts regarding my participation on this planet and call on all my profitable affiliations, including friends, business associates and others to participate in the ideas that will generate unlimited abundance for all of us, because I remember the power of working in community and genius that comes from blended minds on purpose.

I perceive only the vastness of the Universe in all arenas, and focus on the flow and ever changing energy of all things. My mind, my being and my energy is now completely receptive and open to receiving all the money I need and more. From this point forward, my perception of money is that it is simply a vehicle of the Universe which I use only for the highest and best good of all concerned.

I allow my creative self to overflow and accept acknowledgment for my work in those arenas. I also accept payment in large sums of money because my gifts are also being released at their highest levels.

I see myself receiving acceptance, acknowledgement, and great appreciation for my work, my being and my soul's work on this planet as I bless every day with great thanks the Infinite Opportunities that are available to me.

I give thanks to All That Is, knowing that as I have spoken these words, they are already manifested on a different plane and are soon to manifest here on the material plane. I release this treatment to the Universe now with great gratitude and the knowing that as I have spoken it, written it, and declared it is so and I believe it is already done.

And I let it be.
